

Incremental Assessments

Course Title: General: Minnesota Residential Code Review

Instructor: Dan Norby - info@sterlingproed.com

Assessment Period: 1.1 - 1.5

I. Overview of Incremental Assessments

- Each learning objective in this course is paired with at least one incremental assessment to measure learner mastery and support active engagement.
- Assessments may include quizzes, scenario-based exercises, interactive activities, or other methods appropriate to the course content.

II. Assessment Details

| Learning Objective | Assessment Type | Description | Number of Items | Alignment with Objective | Assessment Tool Used |
|--------------------|-----------------|-------------|-----------------|--------------------------|----------------------|
| General | Progress | 1-question | 1 | Confirms | LMS Quiz |

| | | | | | |
|--------------------|---------------------|--|---|--|---------------------|
| 1.1 | Check Quiz | quiz at end of module video | | understand ing of key concept in module | (embedded) |
| General 1.2 | Progress Check Quiz | 1-question quiz at end of module video | 1 | Confirms understand ing of key concept in module | LMS Quiz (embedded) |
| General 1.3 | Progress Check Quiz | 1-question quiz at end of module video | 1 | Confirms understand ing of key concept in module | LMS Quiz (embedded) |
| General 1.4 | Progress Check Quiz | 1-question quiz at end of module video | 1 | Confirms understand ing of key concept in module | LMS Quiz (embedded) |
| General 1.5 | Progress Check Quiz | 1-question quiz at end of module video | 1 | Confirms understand ing of key concept in module | LMS Quiz (embedded) |

III. Rationale for Assessment Methods

- Each assessment method has been selected to appropriately measure the corresponding learning objective.
- A mix of interactive engagement techniques is utilized to foster active learning and accommodate diverse learning styles.

IV. Remediation Procedures

- Learners who do not demonstrate mastery on an assessment will receive immediate feedback, explanations of correct answers, and additional resources for review.
- Opportunities for reassessment will be provided as per course policy.

V. Remediation Procedures

- All incremental assessments are to be submitted through the LMS embedded quizzes.
- Learners will be notified of their results and provided with remediation or additional support as needed.
